

Mechanical & Electrical Maintenance

Contract Services has built a formidable reputation as one of the best maintenance organisations in Ireland, delivering a full range of mechanical and electrical services using our highly qualified in-house engineers.

We provide electrical and mechanical maintenance packages, covering all planned and re-active requirements with 365 day, 24/7 call-out services throughout Ireland.

Contract Services delivers mechanical and electrical maintenance services throughout all sectors including, Commercial, Retail, Industrial, Public and Social Housing and has gained the reputation as a trustworthy team of professionals. This reputation is built on the foundations of efficiency and effectiveness.

Our workforce maintain systems to the very highest standards and are qualified in their relevant disciplines, with supervision and management from highly qualified and experienced experts.

All maintenance provision requests are analysed prior to implementation, ensuring that a unique service delivery programme is developed and tailored to match the requirements of each individual client.
