

## BBC Restaurant, Belfast.

The BBC and Servest commissioned Contract Services Design Studio in the first instance to redesign the 7th floor restaurant to create a stunning restaurant offering an excellent servery, spacious dining, relaxed coffee areas and informal meeting space. Following the design process we were appointed by AECOM and Capita to project manage the complete refurbishment to a tight schedule. As this was a busy working environment for the BBC, which had to remain operational throughout, a major aspect of the project was to respect those employed on all floors below and to ensure limited disruption to all staff. This was a CDM project completed in its entirety by Contract Services who acted as Principal Contractor

Our services include:

- Interior Design
- Colour Schemes and Finishes
- Painting and Decoration
- Flooring and Ceilings
- Mechanical and Electrical
- Furniture Supply and Installation
- Project Management
- Bespoke Joinery

## BBC Restaurant, Belfast.

The completed project provides a modern bright and spacious interior with private meeting booths, functional dining and relaxed coffee areas for the staff and visiting clients at the BBC.
