*We are passionate about our furniture and proud of our reputation for providing a prompt, efficient and friendly service.*

[www.oceedesign.com](http://www.oceedesign.com)

We hope that our brochure will provide you with a taste of our extensive portfolio and the service we provide. It was impossible to fit all the detailed product information into one publication, so we would like to invite you to visit our website at **www.oceedesign.com**. The website contains videos, specification sheets, CAD drawings, operating and maintenance instructions, as well as more location photography, and news about our activities.

### Contact

Our highly trained staff can offer advice on space planning, fabric choices and the most appropriate ergonomic seating for your requirements. We would be delighted to help you with any questions you may have. Please call us on **01604 674674** or email us at **sales@oceedesign.com**.

### Notes

#### **Warranty & Recyclability**

All of Ocee Design's products are offered with a minimum 5 year warranty and are a minimum of 95% recyclable, unless otherwise stated.

#### **Testing and standards**

Details of testing standards are to be found on page 192 and full specification sheets are available at **www.oceedesign.com**.

#### **CMHR foam**

All of our seating products are manufactured using CMHR foam as standard.

#### **Table tops and powder coating options**

Within the product descriptions we have specified the standard table tops and frame options available. If you would like a different specification, or would like to find out more about the other wood or colour options on offer, please contact **01604 674674** or email **sales@oceedesign.com**

## *Our Company Story*

---

*Ocee Design is an independently owned UK manufacturer of commercial furniture working with office furniture resellers, design and build consultants, architects and specifiers. We operate from a modern production facility in Northamptonshire and showrooms in Northampton and London.*

At Ocee Design we specialise in creating cutting edge designs without compromising on comfort or reliability. We recognise that customers want high quality products at accessible prices, backed by an efficient service. Our aim is to research and pioneer new products and practices to enhance the working environment of the end user.

The company was founded in 1990 to provide unique commercial seating solutions and real business benefits to our customers. Our strategic development has taken us from a producer of operator and task seating to an established British furniture manufacturer of superior designed, high quality products. We believe in producing furniture manufactured to the highest standards of quality and supplied with exceptional levels of service.

## *Service & Quality*

---

*We pride ourselves on our dedicated customer service, bespoke product design and guaranteed delivery programmes.*

The efficient and reliable service of our internal and external sales team has fostered long-term relationships with our clients. Our space planning, marketing and unique delivery service are all designed to enhance the sales proposition of our clients. The unique 5 working day delivery cycle allows us to deliver the majority of our product range during the week following order placement.

Ocee enforce stringent quality standards. Our products are constructed using only the finest quality materials and craftsmanship, enabling us to offer a minimum 5 year product warranty and an extended 10 year warranty on certain ranges. We are members of the British Contract Furniture Association (BCFA) and Furniture Industry Research Association (FIRA), having achieved full accreditation under the Furniture Industry Sustainability Programme (FISP). As you would expect from one of the UK's foremost commercial furniture manufacturers, we are a quality assured organisation accredited to both ISO 9001 and ISO14001.

By regularly monitoring and reviewing our performance we ensure that we manufacture in the most responsible manner. We have made significant investment in solar energy and heat exchange technology to reduce our energy consumption. Our R4 environmental charter has been developed to encourage us to Reduce, Reuse, Refurbish and Recycle wherever possible. We offer customers the option of having old chairs professionally refurbished or disposed of in a sustainable and environmentally friendly manner. We work with partner organisations to support initiatives that enable old chairs to be reused by schools, charities and community groups. The steps we take to remain at the forefront of environmentally friendly manufacturing and provide customers with an assured, ethical source of supply are described in our environmental policy.

## Our Design Ethos

---

*We believe in quality design and will continually challenge conventional thinking to provide customers with ground breaking solutions.*

At Ocee Design we provide furniture solutions to create inspiring environments. By investing in new products and innovations we have created a stunning portfolio, while staying true to our philosophy of manufacturing ergonomically designed quality British furniture.

We research the everyday activities undertaken in busy working areas to determine how our furniture can effectively facilitate new ways of working, learning and interacting.

We work with well-known British and international designers and also invest in young talented individuals to inspire them to create exciting furniture. We believe in encouraging the designers of the future and assist both lecturers and students with their assignments.

## Ergonomic Design

---

*Because of our belief in the importance of ergonomic design our products can be sold and specified with confidence.*

At Ocee Design we understand that a chair is literally the support for your working life. We specialise in producing high quality, ergonomically designed, innovative and stylish seating to cater for the demands of the working environment.

We consider the ergonomic design of every product and recognise the importance of correct posture to general well-being. Our experienced sales advisors are trained to specify the most appropriate seating for particular users and environments.

Ocee stress the importance of correctly setting up a chair for individual users and endeavour to ensure the simplicity of readjustment to enable multiple users to use the same workspace.

Our Ergonomic and Backcare collection is perfect for people who have experienced back problems and as such has been endorsed by a leading Chartered Physiotherapist.

We have developed products specifically to support the HSE directives and have particularly considered the requirements of 24-hour working environments, such as surveillance rooms and call centres. To ensure individuals have the correct chair we have included petite and heavy-duty options.

NOAHTAB/AB

# Noah

*Designed by Samuel Wright*

Workspaces are becoming more open, flexible environments, taking inspiration from domestic interiors. The Noah collection creates a relaxed breakout area as well as a contemporary timeless aesthetic to an atrium or lounge.

This collection celebrates the craft of the British manufacturing industry, using traditional techniques to produce contemporary timeless pieces. Noah was influenced by the iconic styles of 50's British and Danish design whilst considering emerging trends within design and the working environment.

## Features

- Rocker, armchair, sofa and matching table
- Oak and black ash solid wood frames
- Loose cushions
- High density premium quality foam
- Premium quality webbing

The Noah Sofa, Rocker, Armchair and Coffee Table are in Oak and upholstered in Camira Blazer Plymouth.

The Harc range of low and high back seating shown in Camira Blazer Sliverdale, Aberdeen, Nottingham and Banbridge with Harc tables.

# Harc

*Designed by Roger Webb Associates*

Within busy workplaces and collaborative environments there is a need for furniture that encourages social interaction, intimate meeting places, privacy, and places of refuge where focus, paying attention and listening are essential. Harc has been created to facilitate the basic need to listen and to provide a place to cut out or reduce the surrounding noise. The name Harc echoes the arc shape with its sweeping curves that wrap around to create a warm and cosy enclosure.

The design references back to 1950's styling with characteristically sophisticated low and high back sofas, all designed on leg frames either in wood or aluminium.

## Features

- Single seat chair, two and three seat sofa
- Low and high back option on all models
- Fully webbed seat for additional comfort
- Powder coated cast aluminium, chrome and wooden base options
- Powder coating in silver (RAL 9006), black and white as standard with other colour finishes on request
- Oak and black ash wooden legs as standard with other options on request
- Two-tone fabric option
- Available in fabric or vinyl
- Matching upholstered stool
- Matching wooden rectangular tables in a wide variety of finishes with wooden, chrome or powder coated legs

HARCHB3/C

HARCLB2/C

HARCLB1/C

HARCTABLE/C/14

Harc Tub wire framed chairs in Camira Blazer Nottingham and Silverdale with a Harc wire frame table.

# Harc Tub

*Designed by Roger Webb Associates*

Harc Tub chairs suite with the full Harc range. The two heights offer a lounge chair and a meeting chair scaled for working at a table. With the wrap around acoustic high backs, the chairs become secluded spaces, intimate and private places to concentrate, listen and focus attention on tasks.

Three base options in wood, powder coated aluminium and a polished aluminium swivel offer choices for all environments.

## Features

- Low and acoustic high back lounge and meeting chairs
- Two-tone fabric option
- Available in fabric, vinyl or leather
- Moulded foam for additional comfort and durability
- Chrome wire frame base
- Wooden base in oak and black ash as standard with other options on request
- Polished aluminium swivel base with tilt and optional self-return
- Powder coating available in silver (RAL 9006), black and white with other options on request
- Matching square tables with wooden or glass tops (700mm x 700mm) with wood, four star polished aluminium and wire frame to match chair configurations

HARCTUBLB3/W/AB

HARCTUB3/W/O

HARCTUBM2/A

HARCTABLE/4STAR/A/G

# HenRay

*Designed by Henry Gurney*

HenRay is a sharp and stylish range of soft seating created by our in-house designer. High back units offer comfort and privacy and suite perfectly with low back seating, benches and tables. Curved modules and booths complete the extensive collection to create large landscape configurations ideal for meeting and public spaces.

## *Features*

- 28 modular units
- Fully webbed seat
- Modular units can create large landscapes or small informal meeting areas
- Available in fabric and vinyl, with two-tone options
- Aluminium or white powder coated legs
- Power and audio visual options
- Square scatter cushions and bolsters available

A selection of the HenRay range shown in Camira Blazer Wesley, Silcoates and Surrey.

# Dishy

*Designed by David Fox*

The Dishy chair and sofa offer a stylish solution to any corporate or hotel environment. The Dishy wood frame gives this acclaimed design a new classic twist. High or low backed lounge chairs boast a selection of bases from the new wooden frame, to swivel or four-legged bases in chrome and powder coated steel.

The generous seat and premium quality foam provide a high level of comfort.

Dishy offers a round top four-star base and two four-legged oval tables with either wood, chrome or white powder coated legs.

Dishy Wooden High Back and Low Back chairs and Sofa shown in Blazer Silcoates and Salford.

Dishy Low Back chairs and Sofa with powder coated white frame shown in Gabriel Crisp 4034 and 4604.

## Features

- High and low back chairs, and sofa option
- Available in fabric, leather and vinyl, with two-tone options
- Four-legged or swivel base in polished chrome or white powder coated
- Oak finish frame with other options on request
- Complementary table collection
- Tables with white, walnut, beech, maple or oak chamfered MF MDF table-tops with other options on request
- Chrome powder coated 4-legged and swivel table bases with an oak finish wooden frame option
- Round table 365mm high, 750mm diameter, four-legged table 365mm high, tube tables 900mm x 600mm and 1200mm x 600mm

DISHY1/SWIVEL

DISHYCIRC

O'cee shown in Camira Vita Amethyst and the O'val chair and stool shown in Camira Blazer Silverdale with complementary Asteroid table. HB-two personal storage in a variety of colours.

## O'cee & O'val

*Designed by David Fox*

Designed exclusively for Ocee Design by David Fox, the O'cee offers a thoroughly modern twist with its striking profile and generous chrome legs. The free-standing modular units create a multitude of configurations to provide any reception or breakout area with a unique and distinctive style.

O'val tub chairs and stools are comfortable space saving seats. The fabric cut-outs of the Asteroid table can be coordinated with O'cee and O'val to create stylish breakout areas.

### *Features*

- Concave, convex and 1600mm and 1200mm straight free-standing modular units
- Available in fabric and vinyl
- Chrome legs
- Complementary Asteroid table with coordinating fabric cut-outs
- Complementary O'val tub chair and stool
- Optional square and bolster scatter cushions
- Tub chair and stool
- O'val tub chair available in fabric and vinyl
- O'val stool available in fabric, leather and vinyl

Stretch shown in Camira Craggon Bracken and Bute Heathered Tweed 2934, with a Noah Coffee Table.

# Stretch

*Designed by Ian Marchant*

Stretch is the landscape seating range designed to expand into any area. With eight individual pieces, Stretch can be a simple armchair or a collection of multiple units.

Ideal for relaxation or collaboration, Stretch can be configured to define breakout spaces. Each free-standing piece can be fitted with silver, beech or oak legs and two-tone fabric options are available.

## Features

Fully webbed seat  
 8 free-standing modular units: armchair, two-seater and three-seater sofas, left or right arm two-seater and three-seater units, and corner unit  
 Available in fabric and vinyl with two-tone fabric options  
 Silver, beech and oak leg options  
 Square scatter cushions and bolsters available

STRETCH3/R, STRETCH2/L, STRETCHCO

A selection of the Skyline range shown in Camira Blazer Silverdale, Camphill, Ulster, Newcastle and Latymer.

# Skyline

*Designed by Henry Gurney*

Skyline has been designed and developed to provide an intelligent planning solution for all environments. Recognising that we work in predominantly rectangular spaces, Henry drew his inspiration from the visionary design of New York City's grid plan city blocks. The use of squares and rectangles allows you to build your own configuration from the 23 different modular units. Ideal in small or large arrangements, Skyline is perfect for corporate breakout and reception areas as well as more robust educational environments.

## Features

- 23 modular units for multiple configurations
- Two-tone options in fabric and vinyl
- Chrome or white powder coated legs with other colours available on request
- Power and data requirements available
- Fully webbed seat

Connaught Sofa and Armchairs are shown in Camira Blazer Banbridge with Camira Blazer Silverdale cushions and a FourResting table.

# Connaught

*Designed by Ocee*

Connaught is a traditional square-lined sofa and armchair range with the added luxury of deep plump cushioning. Extremely comfortable, Connaught is ideal for corporate or hotel environments. The option of two-tone fabric showcases the Connaught perfectly. The full wooden base is an elegant addition to the range.

## Features

Armchair, two and three-seater sofas  
 Matching footstool  
 Available in fabric, leather and vinyl, with two-tone options  
 Chrome or beech legs  
 Wooden base is available in oak as standard but other options are available on request  
 Square scatter cushions and bolsters available

CON1

CON2/WF

CON3

CONSTOOL

Chamfer is shown in Camira Hebden Honeywell & Hemp Acre with a Dishy coffee table.

# Chamfer

*Designed by Ian Marchant*

The stylish tub chair from Ocee Design takes its name from its elegant chamfered corners. The Chamfer range offers a chair and matching two-seater sofa. The compact footprint, and option of a swivel-based chair, makes Chamfer the ideal choice for breakout areas and student accommodation. The choice of a white or silver chrome base rail provides the stylish finishing touch to complement fabric choices.

## Features

- Chair and two-seater sofa
- Swivel chair option
- Compact footprint
- Available in fabric, leather and vinyl, with two-tone options
- Choice of white or silver brushed chrome base rail
- Square scatter cushions and bolsters available

CHAM1  
CHAM2 (SWIVEL BASE)

CHAM3

# Dorchester

*Designed by Ocee*

The extremely popular Dorchester range has been updated with new deeper cushions. With striking square lines, Dorchester is the ideal choice for a reception, office or breakout area. The armchair and two and three-seater sofas are offered with the option of chrome, beech or walnut legs.

## *Features*

Armchair, two and three-seater sofas  
Available in fabric, leather and vinyl  
two-tone options  
Available with chrome, beech or walnut legs  
Square scatter cushions and bolsters available

Dorchester three-seater sofa is shown in Bute Elgin Tweed with chrome legs, with a Cube stool in the same fabric and a Touch coffee table.

# Grosvenor

*Designed by Ocee*

Grosvenor is an extremely popular traditionally styled seating range. The generous tub shape provides a deep and comfortable seat while the optional two-tone fabric adds an extra dimension to any reception, informal meeting or breakout area.

## *Features*

- Armchair and two-seater sofa
- Generously proportioned seat
- Available in fabric, vinyl and leather, with two-tone options
- Chrome, walnut or beech leg options
- Square scatter cushions and bolsters available

Grosvenor armchair and two-seater shown in Camira Blazer Plymouth and Silcoates.

GIGGLE4

GIGGLETAB

GIGGLE3

GIGGLE2

GIGGLE1

# Giggle

*Designed by Ian Marchant*

Inspired by a smile, Giggle is the perfect style statement for a modern hotel, reception or breakout area. Designed exclusively for Ocee Design, Giggle can be supplied with a choice of sledge, crossover skid, four-legged fixed and four-legged auto-return polished chrome frames. The sculptured seat and back offer exceptional support and comfort. The option of Giggle in two-tone fabric creates stunning results.

## Features

Choice of sledge, crossover skid, four-legged fixed and four-legged auto-return polished chrome frames

Available in fabric, leather and vinyl, with two-tone options on both seat and back

Complementary crossover skid framed table

Giggle 4 is shown in Camira Hemp Plus Sickle and Camira Hemp Plus Trough.

# Solace

*Designed by Ocee*

Combining a generously proportioned seat with a compact overall footprint, our exclusive Solace range is the versatile seating solution for confined spaces. Exceptionally comfortable, the stylish tub design can be finished with ball foot brushed chrome or sleek polished chrome legs. Striking two-tone fabric options perfectly complement the design.

## Features

Tub chair with compact footprint and generously proportioned seat

Available in fabric and vinyl, with two-tone options

Ball foot brushed chrome and polished chrome leg options

SL1

Venus 1 is shown in Blazer Silverdale and Blazer Aberdeen with a Touch coffee table.

Solace chairs with polished chrome legs shown in Bute Tweed 0908, 2726 and 2929 with a FourResting table.

# Venus

*Designed by Ocee*

Venus is the ideal compact tub chair for use in cafés, hotels and other leisure environments. Both the diagonal and the curved chrome frame complement the curvature of the back to create a stylish and practical seating solution.

VENUS1

VENUS3

## Features

Compact chair

Available in fabric, vinyl and leather with two-tone options

Diagonal four-legged and curved four-legged chrome frame options

Touch benches are shown in Camira Blazer Cundal with white connecting tables, Laptop table and Asteroid table.

# Touch

*Designed by David Fox*

Touch is a family of products with benches, connecting tables, high and low stools and a matching coffee table. Touch benches and connecting tables are simple practical units designed to allow clients the flexibility to use space efficiently. The quality components, such as the thin high tensile steel chrome legs, facilitate the simplicity of the design. The bench and table units are free-standing to ensure total flexibility. Beautifully simple, the modular design means that Touch looks good as a single bench or as a large configuration to dramatically fill an atrium. The Touch coffee table and matching stools offer a stylish solution for informal breakout areas, and the high stools perfectly complement the poseur Asteroid table.

## Features

- Free-standing modular units with upholstered benches
- Square, T-point, three-point and four-point MFC connecting tables
- Black composite laminate tables available
- Linking device available
- High tensile steel chrome legs
- Laptop and coffee table
- Low and high upholstered stools
- Available in fabric, leather and vinyl
- Complementary Asteroid tables

DOT/LEGS

MORSE/CAST

DASH

DOT

CODE/LEG

# Dot, Dash, Morse, Code & Cube

*Designed by Ocee*

Ocee's upholstered stools are the stylish accessory for any contemporary reception, touchdown or breakout area. Dot, Dash, Morse, Code and Cube offer a range of shapes, heights, leg and castor options to suit any requirement.

## Features

Dot, tubular design with optional legs in two styles (height 400mm x width 470mm)

Dash, square with optional legs in two styles (height 400mm x width 470mm)

Morse, square with leg or castor options (height 465mm x width 470mm on castors)

Code, tubular with leg or castor options (height 455mm x width 470mm on legs)

Cube, (height 500mm x width 465mm)

All available in fabric, vinyl or leather with two-tone options

# Casino

*Designed by Ocee*

The Casino stool range is a great addition to any open space where touchdown seating allows people to take a break or catch-up with colleagues in an informal environment.

The option of a single or double crescent enables a multitude of configurations to be created. Ball foot brushed chrome or polished chrome legs offer that extra finishing touch.

## Features

Round, one crescent & two crescent options

Available in fabric, vinyl and leather

Available with ball foot brushed chrome or polished chrome legs

Klub armchairs shown in Bute Elgin Argyll, Bute Elgin Clyde Canary, Bute Elgin Clyde Turquoise & Camira Blazer Silverdale with a Venalo coffee table.

Casino shown in Camira Blazer 1 Magdalene, Casino 2 bite in Bute Elgin Clyde Canary, Casino with polished chrome feet in Camira Blazer 1 Silverdale, with a Touch coffee table & Touch bar stools.

# Klub

*Designed by Ocee*

The popular Klub range has a compact footprint ideal for maximising seating numbers or for fitting in limited spaces. The tub chair and two-seater sofa are the proven solution for receptions, cafés, libraries and educational environments, including student accommodation.

## Features

Tub chair and two-seater sofa

Available in fabric, leather and vinyl

Compact footprint

# Forum

*Designed by Ocee*

Forum is a flexible and fully modular seating solution. The range includes an armchair, arm and non-arm segments, together with inner and outer corner sections to provide a multitude of configurations. A matching upholstered table can be supplied with either a maple, beech, oak or fabric top.

## *Features*

Left arm, right arm and non-arm segments, together with inner and outer corner sections

Armchair

Available in fabric, vinyl and leather with two-tone fabric options

Matching upholstered table with maple, beech, oak or fabric tops

Square scatter cushions and bolsters available

# Den.

*Do you remember making a Den?*

*Was it an edifice of sofa cushions and sheets, a cardboard box castle or a tangled tepee of branches and bracken? Those small creative structures defined a private space, a quiet retreat - a place to meet with friends...*

**Den** is a range of acoustic work areas created to make public spaces private. With eight different styles, numerous configurations and a full array of accessories, everyone has the opportunity to build their ideal **Den**.

In any open plan work area there are times when you need to find your own space. The environment we work in has to facilitate both the privacy needed to concentrate and the space needed to collaborate. The workplace has evolved as new technology has changed our working habits. Large open spaces with shared working areas create lively exciting environments, which cultivate greater collaboration. But what happens when you need a quiet area to reflect on a budget, write an essay, hold a meeting, or even talk on the phone?

When we began to talk to people, we soon realised that we needed to locate our inner child and create a **Den**.

Den is your noise barrier, acoustically enhanced to separate you from the hubbub of the workplace. Den can have power, reading lights and data connectivity. Worktops can be positioned to suit your working style, and soft seating can make your Den a comfortable retreat.

## *Unique economical construction*

**Den's** unique junction system enables numerous configurations to be constructed with shared components, unlike other acoustic work systems which extend their configurations by placing stand-alone units back-to-back. **Den's** modular design ensures an economical construction, which can be easily extended and reconfigured to suit your changing needs.

## *Acoustics*

**Den** is an acoustically enhanced product designed to reduce noise and distractions. The acoustic performance of the panel construction has been independently tested in an acoustics research laboratory following the guidelines found in BS EN ISO 354:2003 (Acoustics - Measurement of sound absorption in a reverberation room).

## *Finishes*

Both plain and quilted fabrics are available with a silver or black trim line. Panels can be chosen in matching or contrasting fabrics depending on your design.

The worktops are available in maple, white, cherry, walnut and oak with a matching edge or contrasting ply or black edge. A chunky 43mm worktop is offered along with a 25mm and a chamfered 12mm.

**Den.Honeycomb** 1350mm high and 1950mm modular width, four person workstation, shown in Camira Blazer Ulster and Silverdale with FourCast One chairs.

# O'zone

*System Furniture*

Whether in a business, education or leisure facility, O'zone provides areas for individual study, informal meetings and social gatherings. The curving construction creates private and communal spaces for touchdown working or longer periods of desk based study.

Screen and desk height, as well as colour, finish and fabric can all be specified. The ability to configure and re-configure modules offers the flexibility to alter working environments to cater for changing needs. In addition, Ocee Design's extensive portfolio complements the O'zone system with high quality task and breakout furniture.

O'zone is constructed to withstand the demands of the busiest environment. We have total confidence in our quality procedures and as such O'zone is offered with a full 10 year warranty for normal wear and tear conditions.

## *Features*

25 different modules to construct working, dining and reception units

Quality birch plywood frame

Desktop finish options in white, maple, beech, walnut, light grey and oak

600mm deep x 25mm thick desk at two desk height options - 720mm or 1000mm

Screen laminate finishes in platinum white, light grey and maple

The option of writable, wipeable screen surfaces

80mm thick modular screen at three height options - 1200mm, 1500mm or 1800mm

Egger laminated plywood board on both sides

End posts, linking posts and top-caps stained quality birch plywood

Seat and desk support in white as standard

Edging and trim finish options in black, oak and walnut (other finishes are available upon request)

Upholstery available in fabric and vinyl

Specific power and data requirements accommodated

10 year warranty

O'zone configurations shown with a mixture of seating areas and workstations.

O'zone Dining Booths.

# O'zone

System Furniture

With 25 different modules, O'zone can provide working areas, reception counters and dining booths. The modular design has been created to provide you with the freedom to construct spaces to suit your specific needs.

# FourCast

*Designed by Strand & Hvass*

The Four Family is a concept as well as a product collection – a new way to work and interact. Designed by architects Christina Strand and Neils Hvass, the FourCast range is characterised by superb functionalism and a simple Scandinavian minimalistic design.

The FourCast and FourSure ranges are designed to create harmony in interiors, whether it is in the canteen, classroom, conference or boardroom. The common design of the seat shell creates a consistent style throughout a building.

We have considered every seating application, both for the education and business sector, to create ingenious designs.

Four embraces the shift away from traditional interiors towards environments that encompass the latest technology and enhance the best working practices. Accessories such as the Inno®tab and dashboard create the perfect agile working platform by accommodating phones and computer tablets.

The Four range is tested to the highest quality standards and is therefore suitable for the toughest environments. It is also load tested to 112 kg. All of the Four Family chairs are 100% recyclable, excluding upholstery, and are offered with a full 5 year warranty.

## *FourCast Chairs*

Nine FourCast chair types utilise the same ergonomically shaped seat shell on a variety of bases. The shell is both exceptionally strong and flexible, offering the user excellent seating comfort. Nine vibrant coloured polyamide shells can be chosen with or without upholstered seat pads. Fully upholstered FourCast chairs offer a stylish extension to the range.

## *Four Tables*

The Four family also includes a comprehensive table collection of high and low level options. The innovative FourReal space-in space partition allows one person to quickly create a workspace with improved acoustics and a sense of privacy. All of the Four family tables can be found in the Table Section on page 121 to page 151

We welcome you to the Four family and hope that our innovations will inspire your working environments.

FourCast XL Plus with black powder coated frames.

# FourCast XL Plus & XL

*Designed by Strand & Hvass*

With excellent seating comfort and broad leather topped arms, FourCast XL is an elegant armchair for the meeting or boardroom. Fully upholstered, the FourCast XL is classically chosen in leather, but is available in a wide variety of fabrics. The four star base is fitted with glides, whereas the five star base has the option of castors and gas lift. An automatic return can also be selected on chairs without castors. The high back FourCast XL Plus is also available. The FourCast XLPlus offers the same features as the XL with the addition of a higher back rest for enhanced comfort.

## *Features*

- Aluminium frame
- Armrest with leather
- Swivel base
- Return mechanism option
- Freefloat seat/back mechanism
- Optional gas lift
- Glides or soft castor option
- Optional black or white powder coated frame with other options on request
- Weight capacity 112kg
- FCXLPlus 960mm high
- FCXL 875mm high

FCXLP1

FCXL1

Wood veneer FourCast Evo chairs with seat pads, arms and black powder coated frame, with a FourMat table.

## FourCast Evo

*Designed by Strand & Hvass*

The loop chrome arms of the FourCast Evo complement the simple lines of the FourCast shell. The stylish aluminium four star swivel base has a freefloat seat/back function and optional armrest and gas lift. A five star base option can be fitted with castors or polyamide glides. The tilt mechanism enhances the inherent flexibility of the shell to offer even greater comfort. FourCast Evo is available with or without upholstery or with an upholstered seat pad.

### *Features*

- Fully upholstered, seat upholstered and non-upholstered options
- Swivel base
- Freefloat seat/back function
- Optional return mechanism
- Armchair option with leather armrests
- Five-star aluminium base with castors
- Gas lift option
- Standard polyamide glides or soft castor option
- Weight capacity 112kg
- Wood veneer available
- Powder coated frames in a variety of colours

FCEAU1

FourCast One in a variety of shell colours.

# FourCast One

*Designed by Strand & Hvass*

The FourCast One has an elegant angled four-legged swivel base with freefloat seat/back function. Optional armrests are available. Ideal for the office, conference room or home office, FourCast One can be fitted with plastic glides or castors.

## Features

- Freefloat seat/back function
- Swivel base
- Optional return mechanism
- Armchair option with leather armrests
- Standard polyamide glides or soft castor option
- Weight capacity 112kg
- Wood veneer options
- Powder coated frames in a variety of colours

# FourCast Four

*Designed by Strand & Hvass*

At home in the canteen, classroom, meeting room or conference room, FourCast Four is a versatile stacking chair for any environment. Available in vibrant coloured shells, with the opportunity of contrasting upholstered seat pads, FourCast Four can create stunning dining or conference areas.

FourCast Four is compatible with the FourEating table's ingenious chair suspension unit. A linking device can also be fitted under the seat for conference use.

## *Features*

- Fully upholstered, seat upholstered and non-upholstered options
- Stackable 8 upholstered, 10 without upholstery
- Non-upholstered chairs stackable 20 high on the trolley, upholstered chairs 12 high
- Optional linking device under the seat
- Compatible with FourEating table chair suspension
- Optional armrests
- Powder coated frames in a variety of colours
- Weight capacity 112kg
- Outdoor models available
- Available with inno®note removable tablet with integrated cup holder
- Griphooks available
- Wood veneer optional

FourCast Four in Jungle Green shown on the FourEating table suspension system.

FourCast High in Orange, Oriental Red and Purple with FourStanding tables.

## FourCast High & Counter

*Designed by Strand & Hvass*

FourCast High and Counter chairs are skid framed stacking chairs for high level working or dining. Designed for use with the Four Standing and Counter tables, the chairs create striking multi-height areas when used in combination with other FourCast seating products.

### Features

- Fully upholstered, seat upholstered and non-upholstered options
- Designed to match the FourStanding, FourCounter and FourReal tables
- FourCast High 1090mm high
- FourCast Counter 980mm high
- Frame design for increased stability and leg space
- Integral footrest
- Stackable 8 upholstered, 10 without upholstery
- Weight capacity 112kg
- Powder coated frames in a variety of colours
- Griphooks available
- Wood veneer option

FCH

FourCast Wheeler is ideal for collaborative working.

# FourCast Wheeler

*Designed by Strand & Hvass*

Developed to encourage interaction between people, FourCast Wheeler with Inno®tab inspires cooperative learning by optimising the physical environment for people's interaction. Research has shown that cooperative teaching methods triple learning outcomes, as students actively work together. However, the lessons of the classroom can be equally applied to any business or training environment. With the FourCast Wheeler individuals can simply move to wherever they wish to work. The addition of the side hanging storage and the Inno®tab with dashboard for phones and computer tablets makes the wheeler the perfect working platform.

## Features

- Castors for easy movement
- Inno®tab, flexible and rotating writing tablet
- Dashboard for phone and tablets
- Hanging compartment with room for pens, bottle, notebook computer or books
- Gas lift
- Black base or optional aluminium base
- Optional glides
- Weight capacity 112kg
- Compatible with Four table chair suspension
- Extra height gas lift with footring available
- Griphooks available
- Cup holder and coat hook available

- Weight capacity 112kg

# FourSure

*Designed by Strand & Hvass*

FourSure is the new more curvaceous member of the Four Family. With an elegant organic design, FourSure chairs offer amazing seating comfort. Four leg, skid frame, wheeler and counter height options ensure that FourSure has a chair for every area. The assembly uses no screws or bolts, which makes FourSure extremely strong. The clever construction also removes the need for a cross bar on the skid frame, allowing the clean lines of the design to flow without interruption.

As with all the Four chairs, FourSure is available in a range of stunning seat and powder coated frame colours to enliven any interior. A full selection of Four Family accessories and upholstery options have been selected to allow you to create the chair best suited to your workplace.

FourSure is perfectly complemented by the Four Table Collection of high and low level options. All of the Four family tables can be found in the Table Section on page 121 to page 151

FourSure 44 Armchairs with inner seat upholstery, black shell with matching frame and a FourReal table.

## FourSure 44

*Designed by Strand & Hvass*

Part of the more curvaceous FourSure range, the FourSure 44 is an extremely comfortable four-legged stacking chair available with or without arms. FourSure 44 is extremely comfortable due to its unique V-shape, flexible back and organic curves. Exceptionally robust, FourSure 44 is the perfect choice for canteens, meeting rooms, lecture rooms, or for office visitor seating.

With non-upholstered, upholstered and colour frame options, FourSure 44 has endless combinations to perfectly match your specific requirements and decor.

### Features

- Inside seat upholstery, upholstered seat pad and non-upholstered options
- Compatible with the Four table suspension system
- Stackable 25 without upholstery, 15 upholstered on trolley
- Optional powder coated frames in a variety of colours
- Available with Inno®note detachable and foldable tablet with integrated cup holder
- Extremely strong with patented assembly method using no screws or bolts
- Optional griphooks

FourSure 66 with examples of seat pads and inner upholstery.

FourSure 90 in black with matching powder coated frames and upholstered seat pads, shown with a FourReal table.

## FourSure 90 & 105

*Designed by Strand & Hvass*

FourSure 90 and 105 are elegant, stackable skid frame high chairs for higher level working and dining. Like the lower FourSure 88, the higher chairs' construction removes the need for a cross bar on the skid frame.

Designed to complement the FourCounter and FourHigh tables, the FourSure 90 and 105 can also be used with the FourReal tables and partitions to create flexible private work spaces.

### *Features*

- Inside seat upholstery, upholstered seat pad and non-upholstered options
- Compatible with Four table suspension system
- Stackable 5 high
- Optional powder coated frames in a variety of colours
- Extremely strong with patented assembly method using no screws or bolts
- Optional griphooks
- Weight capacity 112kg

# Kite®

Meeting

The Kite® folding table is simple to move, fold and store. Designed to optimise the meeting experience, Kite® is suitable for all environments from the boardroom to the classroom.

The Kite® shape ensures that each person has their own working space and good line of sight to the presenter and other delegates. Everyone sits at a straight edge with 750mm of personal space; no one straddles a table leg, writes over a seam or is squashed into a corner.

Kite's flexibility creates an agile working environment where a single person can quickly reconfigure tables into new working styles. With a compact nesting profile, tables are easily folded and stored without any heavy lifting or the need of a trolley.

With a variety of leg options and a selection of tops, from banded inlay veneers to white MFC, Kite® has a finish to match any interior.

KTKVP/TCH/WA

Kite® tables, walnut veneer tops with chrome tapered legs with Panache chairs shown in Ocee ivory leather.

## Features

- 750mm of individual workspace with clear line of sight to colleagues
- 580mm of uninterrupted leg room
- Easily moved, quickly assembled and configured by one person without the need for a trolley
- Narrow 390mm transit profile easily fits through doors
- Easy to fold, move and store without any heavy lifting or the need of a trolley
- 750mm and 550mm width ranges
- Compact nesting
- Straight and tapered leg options
- Kite Shape and Kite Rectangle tested to BS EN 15372:2008 test level 2

- Dual locking castors have 50mm height adjustment and ensure stability associated with fixed frame furniture
- Locked castor prevents need for linking device
- Four sided under frame provides exceptional strength and durability
- Modesty panels, power and data connectivity and cable management fitted without compromising folding function
- Matching credenzas available

Kite® tables, white MFC tops with straight white legs.

Three Kite shaped Kite tables make the perfect adaptable small meeting area. Kite white tables with tapered graphite legs shown with Alina mesh back chairs.

## Kite® Meeting and Eating

White Kite tables are as at home in the meeting room as the café or conference room.

From small groups to large social gatherings, Kite® tables make your refreshment and breakout areas a flexible facility. Kite white tables are perfectly complemented by our range of meeting, café and conference seating.

# Kite®

## Presenting & Training

Kite® is more than just a folding table, Kite® can revolutionise the way we use space. The patented Kite shape creates multiple configurations to facilitate meetings of all types. Full flexibility can be maintained with the addition of Tubestation portable power and data.

Kite® facilitates the quick and simple transformation from formal meetings to small breakout groups, or canteens to open spaces. The narrow profile of the folded tables (390mm max) means that they can be easily wheeled through doors and nested compactly.

The four sided frame provides greater rigidity and durability than traditional I frame centrally supported tables. The patent pending dual-locking castor limits movement, negates the need for linking devices and makes Kite® as stable as fixed-frame furniture. The stability, along with the addition of modesty panels and cable management, also make Kite a perfect flexible desk system for smaller rooms.

Kite creates the perfect adaptable presenting and meeting area. Kite veneer tables with tapered chrome leg, shown with FourCast XL chairs in black leather.

# Kite®

Agility

## Meet Anywhere

The Meet Anywhere table is a great solution for those occasions when your meeting rooms are fully booked and you need a quick alternative.

No lifting, no stress, no panic. Simply roll in, flip up the table-top, lock the castors and you are ready to work.

## MiniMobile

The compact storage profile and ease of transit make the MiniMobile the perfect solution for home or office working. A lower height option allows the MiniMobile to be used in the early years educational environment.

Kite® Shape and Kite® Rectangle tested to BS EN 15372:2008 test level 2

# Meet-U®

Table System

The unique Meet-U® table system features a 'tool-free' design of linking fixed tables and bridging tops that ingeniously facilitates different table configurations. An integral rotating corner plate, neatly concealed within the frame, supports bridge tops on two adjacent sides of the table simultaneously. A simple method of extending layouts, bridging tops enhance the sleek and clean design and minimise the number of table legs. Meet-U® allows more people to sit comfortably, making the system ideal for environments with changing tabling needs.

The aesthetic design centres on a shadow line along the structure and down the legs. The features are enhanced by the wide variety of finishes and combinations. A neatly formed channel on the underside of the table allows the insertion of a multi-function clip that can be used to secure and support a modesty panel, link tables together and support power cables as a 'cable tidy'.

Carefully designed with the user in mind, a variety of top shapes including rectangles, squares, triangles and quadrants, link together to form the perfect layout. The versatility of the Meet-U® system means that it is ideally suited to the boardroom, meeting, training and conference room. The wide range of configurations, including the horseshoe, octagonal, rectangular and square, facilitates every type of meeting scenario.

## Features

Easy and quick to assemble and reconfigure

No tooling required for assembly, apart from the supplied Allen key

Compact to store when not in use

Light weight

Adjustable levelling legs

Castor options

Full power and data options

White Meet-U® tables with white semi-gloss legs in a boardroom oval configuration.

# Meest-U®

## Table System

Optional single or double cable duct, power socket 4 or 8 pieces, 240V with 5-metre cable

FourMat table shown with FourCast XL black leather chairs.

FR90 with black powder coated frame and nano laminate top, with FourReal partition and acoustic panel and FS90IU FourSure 90 chairs.

# FourReal

## Table & Partition

By simply clipping the FourReal space-in-space partition to the FourReal table you create small intimate work areas in larger rooms. The clever design allows one person to quickly create a workspace with improved acoustics and a sense of privacy.

FourReal is a folding table designed to be used on its own or with the partition; the rounded shape perfectly complements the FourSure seating range. The table has integrated castors on two legs that allows one person to easily move the table, even when the FourReal partition is attached.

Imagine furniture that creates a private space that can be stacked, folded and moved around the room – by one person.

### Features

- FourReal 74 straight leg 740mm high: 128mm x 640mm, 1400mm x 700mm, 1200mm x 800mm, 1400mm x 800mm, 1800mm x 800mm, tapered 1400mm x 900/800mm, 1800mm x 900/800mm, 1200mm diameter
- FourReal 741 angle leg 740mm high: 1400mm x 1000mm, tapered 1400mm x 1000/900mm,
- FourReal 90 angled leg 900mm high: 1400mm x 600mm, 1400mm x 800mm, 1800mm x 600mm, 1800mm x 800mm
- FourReal 1050 angled leg 1050mm high: 1400mm x 600mm, 1400mm x 800mm, 1800mm x 600mm, 1800mm x 800mm
- Foldable by one person without use of tools
- 2 integrated castors
- Prepared for the FourReal Partition
- Optional chair suspension and cable duct
- Also available for outdoor use
- HPL MFC and nano laminate table tops in a wide variety of colours
- Powder coating available in a range of colours
- Trolley available
- FourReal Partition 1380mm x 1380mm
- Acoustic panels and wipe boards available

FourReal & FourReal Partition combine with FourSure 88 to create a flexible eating area with private spaces.

White FourEating tables with chrome frame and FourCast chairs.

FourEating tables are easy to fold and stack.

# FourEating

## *Multifunctional table*

FourEating is a versatile folding table ideal for canteen, learning or meeting environments. The option of a chair suspension system allows chairs to hang under the table-top, clear of the ground, to prevent the practice of stacking chairs on tables when cleaning. Integrated castors on two legs and height adjustment glides on the other legs aid movement and levelling.

### *Features*

Table sizes: 800mm x 800mm, 1200mm x 800mm, 1400mm x 800mm, 1600mm x 800mm, 1800mm x 800mm, 1800mm x 900mm

1200mm diameter round tables with folding and non-folding options

Four-legged folding chrome tube frame  
HPL MFC tops and nano laminates in a variety of colours

Optional chair suspension

T-frame and outdoor options

Integrated castors

Height adjustable glides

Trolley available

Powder coated frames available in a variety of colours

# FourStanding & FourCounter

## High Tables

FourStanding and FourCounter tables are designed for use with the FourCast and FourSure High chairs. Available in two widths and two heights, the extremely stable fixed tables are perfect for eating and high working areas. For robust environments we offer high precision nano laminate tops with increased scratch, fade and water resistance.

With a wide range of table top and powder coated frame finishes, the Four Standing and Four High can make a dramatic impact in any environment.

### Features

Four-legged fixed steel tube frame  
1030mm and 900mm high

Available in either 1400mm or 1800mm long and 600mm or 800mm wide

Powder coated frames in a variety of colours

HPL MFC and nano laminate tops in a variety of finishes

FST

## *Ergonomic Task Chair*

Featuring a unique anatomically designed cut foam back and dual density moulded memory foam seat, the Physio has been developed to promote correct seating posture. A multi-function mechanism, ratchet back, optional seat slide and inflatable lumbar support allow the Physio to be quickly but correctly adjusted for any user.

The Physio is part of our Ergo+ ergonomic and backcare range, endorsed by a leading Chartered Physiotherapist. The Physio is ideally suited to call centres, control rooms and any environment where comfortable 24/7 seating is required. The option of a two-tone panelled back highlights the distinctive shape.

## *Features*

- Mid and high back task chairs
- Choice of mechanism:
  - Tilt - adjustment of seat and back angles independently
  - Synchro - synchronised seat and back action
- Memory seat foam moulds to the users' shape to promote correct posture
- Ratchet back height adjustment
- Tension adjustment to suit individual user weight
- Optional seat slide and inflatable lumbar support
- Available in fabric, leather and vinyl with the option of two-tone panelled back
- FIRA tested to Level 5 severe use
- Compliant with HSE seating at work directives
- Weight capacity 150kg
- 5 year warranty for 24/7 use and 10 year for general 8 hour office use

## Vault

### Personal Storage Lockers

Vault is a high specification storage system designed to house the personal belongings, post and Hotboxes® of those sharing agile working environments. With a variety of door types customers can choose the most appropriate configuration for their particular needs. Metal doors can be produced to match any colour scheme, and wooden doors and tops are also available. Graphics can be added to reinforce corporate identity or to add a distinctive flourish. Bespoke locking offers both key and keyless options. Vault's quality construction and seamless back also means that each unit can be used as screening or room dividers.

#### Vault Features

- Tested and certified to the highest British standards for strength and stability
- Cabinet uniquely serial number coded
- Reinforced flush seamless corners
- Heavy gauge 18-20 Steel
- Seamless back
- Double skin door construction
- Fully welded cabinet shell with reinforced welded corners gives the ability to move fully loaded
- BeCode, UGL and combination lock options
- Any colours can be matched, even tonal shades
- 10 year warranty

## Keyless Locking Systems

### BeCode

Ocee Design offers a complete keyless furniture locking solution for all your storage furniture.

BeCode's digital and RFID locks are keyless and cable-free, unaffected by power outages and do not require connection to your IT system. Chosen by leading corporate, healthcare and education users, BeCode locks can be used for storage operated by single dedicated users, or for multiple users sharing the same furniture. The BeCode AIR RFID lock seamlessly integrates with RFID building access systems so that users only need one card to open all locks.

BeCode locks are ideal for personal lockers in establishments introducing agile or flexible working, for leisure facilities, schools and universities and parcel collection areas. BeCode locks can also be retrofitted to existing furniture to convert your establishment from key to keyless. The advanced security features and simple operation can be enhanced by optional TAN software, which allows the automatic transmission of lock codes to users via email or text.

### Keyless Lock Features

- Totally keyless for ease of storage management and higher security
- Seamlessly integrates with RFID building access systems
- Digital and RFID locks
- Cable-free, no need for mains connectivity
- Unaffected by power outages
- No IT system connectivity required
- For storage operated by single dedicated users or for shared storage for multiple users
- Can be retrofitted to existing furniture to convert key to keyless
- Simple intuitive operation
- Up to 10 year battery life
- Optional TAN software for automatic transmission of lock codes to users, via email or text
- Vandal and tamper proof locks for robust environments
- Fully supported by UK based experts

# Space Planning
