ASCEND

ASCEND

Our gas assisted **ASCEND** monitor arm offers the perfect balance of contemporary styling and fingertip adjustment.

ASCEND enables the user to free up desk space and easily adjust the height and tilt of their screen to achieve the perfect ergonomic working position.

Shown at full extension – 600mm

Standard c-clamp for 16mm to 55mm desktops

Integral cable management

Holds from 3 – 8 Kg

Optional 180° anti-rotation feature

Key graphics highlighting the simple user adjustment to balance the arm with the weight of the monitor.

Optional 180° anti-rotation feature – a key feature in the design of this arm was to prevent the monitor from rotating back on itself and clashing with either the partition screen or another users screen.

Quick release VESA plate incorporating optional security grub screw to retain monitor.

Simple adjustment to prevent monitor droop.

Standard desk clamp, slat wall and through desk fixings accompany our bespoke mounting brackets, available to suit any range of systems furniture.

Comes ready assembled for quick and easy installation, with integral cable management to maintain the sleek appearance of the arm after install.

ASCEND shown with our laptop stand available from our accessories section.
