Kite®

Meeting tables from Ocee Design —
The Kite® folding table is simple to move, fold and store. Designed to optimise the meeting experience, Kite® is suitable for all environments from the boardroom to the classroom.

The Kite® shape ensures that each person has their own working space and good line of sight to the presenter and other delegates. Everyone sits at a straight edge with 750mm of personal space; no one straddles a table leg, writes over a seam or is squashed into a corner.

Kite's flexibility creates an agile working environment where a single person can quickly reconfigure tables into new working styles.

With a compact nesting profile, tables are easily folded and stored without any heavy lifting or the need of a trolley.

With a variety of leg options and a selection of tops, from banded inlay veneers to white MFC, Kite® has a finish to match any interior.

Key features of Kite® 750— Agile working made easy.

The Dual-locking castor ensures that the table is as stable as fixed-frame furniture. The locked castor prevents the need for linking devices.

50mm height adjustment ensures that each table-top meets flush on the most uneven floors.

The narrow transit profile fits easily through doors (390mm max).

The patented Kite shape facilitates multiple configurations. Everyone has a defined 750mm workspace with a straight edge and a clear line of sight to colleagues.

With 580mm uninterrupted legroom, no one sits astride a table leg, writes over a seam or is squashed into a corner.

Kite tables are available with a variety of leg styles and table-top finishes.

Modesty panels and cable management can be fitted without compromising the folding function. (See Kite Pricelist for more details)

Flip, lock, sit, start work! Kite tables can be quickly and easily assembled by one person - no heavy lifting and no need for a trolley. Kite tables are easily folded, moved and nested allowing you to make the most of your working space.

Meeting—

Facilitating meetings of all shapes and sizes, the unique Kite shape ensures personal space, clear lines of sight and the flexibility to quickly change the layout to suit your needs.

Presentation and Training—

Kite tables create the perfect configuration for any presentation style. Each delegate has a good line of sight so that everyone can be fully engaged. Facilitators can easily transform the room from presentation style to small breakout areas.

Personal working—
Kite maximises the use of
even the smallest space—
the possibilities are
almost endless.

Socialising —

From small groups to large social gatherings, Kite tables make your refreshment and breakout areas a flexible facility. White Kite table-tops are complemented by the colourful Trellis chairs.

Kite® agile working— Meet anywhere – work anywhere

Meet Anywhere

No lifting, no stress, no panic. The Meet Anywhere is the quick and easy solution for those occasions when the meeting rooms are fully booked. Simply roll in, flip up the table-top, lock the castors and you are ready to work.

MiniMobile

The compact storage profile and ease of transit make the MiniMobile the perfect solution for home or office working. A lower height option allows the MiniMobile to be used in the early years educational environment.

Hotbox™ & Hive— New and effective ways of working.

Designed to make you and your workspace more productive, Hotbox™ is a unique, flexible and secure portable personal storage system that is easy to use and extremely durable.

The Hive unit is your personal pigeon hole. When you arrive at work you collect your Hotbox™ and your mail, take them to your workstation and begin your day.

Credenza units— Storage units to match your Kite table.

A range of complementary storage units in finishes to match your Kite tables. Available with 2 or 3 doors.

AVIT

The simple plugin and play mobile presentation unit is the ideal partner to the Kite table system.

Tubestation

Tubestation unlocks the versatility of Kite by neatly providing mobile power, data and AV connectivity.

Power units

A range of soft wired power and data units can be fitted to all Kite table systems.

PowerKiss

A simple, efficient, wire free method of charging your mobile device on top of a Kite table.

Modesty panels

Modesty panels can be fitted to all Kite tables and are available in matching finishes or in perforated steel. Modesty panels can be easily removed or added to tables at any time without compromising the folding function.

Cable management

A range of cable management products can be used to neatly accommodate cables into the Kite table systems. The Zipit fabric sleeve wraps around the table leg housing cables and reducing trailing wires.

Kite® 750 layouts —

A selection of popular layouts.

The two diagrams above have the same floor area. The diagram to the right shows the area converted into a lecture-style arrangement. The tables are shown folded down and nested together on the back wall. Seating capacity is doubled and the tables remain in the room.

Frequently asked questions—

What makes Kite tables unique?

The Kite table system is the world's only tilt-top, gate-leg table system. This ensures clear knee and leg room for everyone. The Kite shape (patented) offers an unrivalled number of opportunities for room layouts that help you meet, train and communicate correctly. Kite tables are the strongest folding tables available, with a full frame supporting all sides. This applies to all Kite table shapes. When folded, Kite tables don't cause any obstructions or hazards and can be easily transported by one person along narrow corridors or doorways.

Tell me about the castor technology.

When unlocked the Kite Dual-Locking castor (patent pending) enables smooth transportation of the table on all floor surfaces. Unlike a traditional castor its unique engineering prevents the castor rotating and swivelling when locked, thus creating the rigid stability associated with fixed frame furniture.

Can I level Kite tables if my floor is uneven?

Yes. Two levelling spindles are found above the Kite Dual-Locking castor. To instantly level your table, simply turn the spindle by hand. Every leg has 50mm of adjustment, ensuring perfect table-top alignment (no tools are required).

What top finishes are available on Kite tables?

Customers can choose from a variety of finishes and beautiful veneered tops with optional inlay. We also produce special table tops using environmentally friendly materials such as Bamboo and Forbo linoleum (price on application). For finish samples please email sales@oceedesign.com.

Can you produce special sizes?

Subject to quantity we can produce a wide variety of rectangular folding tables. The maximum length available is 1850mm and the maximum depth 800mm.

What leg finishes are available on Kite tables?

Tapered leg – silver, chrome.

Straight leg – silver, chrome, graphite, white.

Other colours - Price on application (minimum order level may apply).

Do the tables link together?

No. Our unique Dual-Locking castor eliminates the need for any linking device. When all castors are locked the tables are as strong and sturdy as a fixed table. Simply unlock the castors and you are ready to go – further reducing reconfiguration time and effort. Should linking be required for electrical safety reasons, we can provide the appropriate device.

Can I have electrics in my Kite tables?

Yes. We offer a number of power units which can be configured with voice, power, data and VGA connections.

Who uses Kite tables already and can I obtain a reference?

Thousands of organisations all over the world use Kite. We can provide references across every sector including banking, education, corporate, healthcare, government and hospitality.

Do all Kite tables fold?

Yes, to a profile of 390mm.

A matching modesty panel and cable management can be fitted without compromising the folding function.

Do Kite tables nest?

Yes. All Kite table shapes fold and nest in the same way. Five tables nested will occupy 1015mm.

Are the castors suitable for hard floors?

Yes. Kite tables are fitted with our patent pending Dual-Locking castors, more durable than a traditional castor and with a unique structure that is suitable for all floors.

What is the warranty on Kite tables?

Kite tables are guaranteed for 10 years under normal wear and tear conditions. OCee Design seating is guaranteed for 5 years when used for up to 8 hours per day and subject to normal wear and tear conditions.

Do you offer a range of fabrics/finishes for your seating lines?

Yes. A full range of fabrics are available from all mainstream fabric manufacturers. A range of finishes are available and are specified for each product range.

Where can I find an OCee Design dealer?

Simply telephone us on 01604 674674 or send an email to sales@oceedesign.com with details of your address and post code and we will advise you of your nearest dealer.

OCee Design is the exclusive licensee of the patented Kite® table system in the UK and Ireland. We are an independently-owned UK commercial furniture manufacturer focusing on quality design-led products. We work with office furniture resellers, design and build consultants, architects and specifiers. We specialise in creating cutting edge designs without compromising on comfort and reliability. We pride ourselves on our dedicated customer service, bespoke product design and guaranteed delivery programmes. We enforce stringent quality standards and our R4 environmental charter ensures that we pursue a green agenda. Our aim is to research and pioneer new products and practices to enhance the working environment of the end-user.

We provide proven products that can be sold with confidence.

Kite® is manufactured in the UK under license by OCee Design Limited.

Under copyright law any use of Kite® trademarks, images and patent numbers in commercial literature, websites or general marketing material must be reviewed prior to publication by a director of OCee Design Limited.
