

Virgin Media Headquarters, Belfast.

Virgin Media appointed Contract Services Design Studio to manage the complete project from start to finish. Working to a tight timeframe that considered Virgin Media's operational needs. The project included a full design and refurbishment for their new 3 story Head Quarters in Heron Avenue, Belfast.

The ground floor design brought collaborative space offering touch down areas, hot desking, private meeting booths and kitchen breakout. The first floor design included open plan office space with touch down areas and private meeting and telecom facilities. The mezzanine floor design also included additional private meeting and telecom facilities, comms and storage space. The office interior is tonal with vibrant accents using corporate colours and branding.
