

Musgrave Canteen & Facilities HQ, Belfast.

Following the successful completion of earlier projects, Musgrave appointed Contract Services Design Studio to undertake the interior design and refurbishment of their canteen and facilities at Headquarters, Belfast. The space has a modern look, creating a cosy atmosphere, finished in wooden elements with natural hues, and dark contrasts.

The bespoke servery counter front, breakfast benches, joinery items, Elite Loco benches, and dining tables are all finished in nebraska oak with black contrasting metalwork. The flooring is finished in Gerflor Creations Cedar Brown LVT, offering an oak look with grey and earthy brown undertones. All set against a white and grey back drop.

The use of Biophilic design brings nature into the space with the dark hedges landscape feature wall and the planters throughout, creating a calm.
