

Musgrave Reception HQ, Belfast.

Musgrave appointed Contract Services Design Studio to manage the complete project from start to finish. Working to a tight timeframe that considered Musgraves operational needs. The project included a full design and refurbishment for their Reception Headquarters, Belfast.

The chevron LVT flooring, nebraska oak with black nanotech furniture and tactile upholstery combined with the use of biophilic design creates a calm and elegant reception. All set against a white and grey back drop with subtle use of corporate accent colours and branding.
